

# POLICY FOR ALCOHOLIC DRINKS AND DRUGS

Translated 2016-06-22

This is a translation of Föreningen Ekonomerna's Swedish policy "Policy för alkoholhaltiga drycker och droger". In case of ambiguity in matters of dispute, the Swedish version shall always apply.

## Background and aim

As a part of student life, arrangements are often made that involve alcoholic drinks. These arrangements shall be characterized by a good atmosphere where all the Association's members feel welcome. With this policy document, Föreningen Ekonomerna intend to promote a healthy relationship to alcoholic drinks by means of a number of guidelines.

## Policy

Föreningen Ekonomerna does not accept forms of socializing where:

- Drunkenness holds a central position.
- There is a marked risk of vandalism leading to harm to individuals or damage to material on account of alcoholic consumption.
- The individual's integrity is not respected, for example through peer pressure.

Serving license guidelines in effect and Swedish legislation shall apply during a party event. Some clarifications follow here:

- It is prohibited to sell, produce, distribute, possess, use or be under the influence of illegal drugs in Föreningen Ekonomerna's premises or at its events.
- At least one person from the personnel shall be completely sober (person responsible for serving) during a party event.
- On-duty personnel cannot be drunk.
- Alcoholic drinks shall not be served to clearly drunk persons.
- No alcohol is offered or given away as a gift. Exceptions may be made by the Board in connection with external representation.
- Personnel who serve alcoholic drinks that are for sale must have taken and passed the STAD education.

- If the use of illegal drugs comes to our attention, appropriate measures are taken, such as informing the police.
- No full bottles of strong spirits and wine may be offered during serving.
- When alcoholic drinks are served, at least one alcohol-free alternative must be offered (other than water).
