

POLICY FOR COMMITMENT AND BONUS POINTS

Translated 2016-06-22

Revised 2018-01-22

Purpose and Background

A well-executed assignment within Föreningen Ekonomerna shall be rewarded and documented. Commitment shall be encouraged, which is the main reason why Föreningen Ekonomerna issues certificated to active members of the Association.

There are two different certificates: *certificate of commitment* and *certificate of bonus points*. A certificate of commitment is a written proof of commitment within the Association and a certificate of bonus points entitles bonus points that can be used when applying for a semester abroad. The latter certificate is issued only to students who can still apply for a semester abroad at Stockholm Business School.

This policy governs the kinds of certificates Föreningen Ekonomerna issues. It also regulates for which commitment students can earn bonus points.

About bonus points

Through collaboration with the Department of Business Administration, students who qualify for bonus points receive three (3) bonus points. A certificate of bonus points can only be issued once per student. When applying for a nomination for studies abroad, the student's grades are transformed to points as follows:

Grade	Points for course of 7,5 HP	Points for course of 15 HP
A	5	10
B	4	8
C	3	6
D	2	4
E	1	2

To the student's total point, the three bonus points from Föreningen Ekonomerna can be added. For example, if a student has taken eight courses of 7.5 HP and received B in all courses, the student has obtained a total of 32 points (8 x 4p). Upon obtaining bonus points from Föreningen Ekonomerna, 3 points are added to these, and the student has obtained a total of 35 credits when applying for nomination for studies abroad. A commitment for bonus points is only used between Föreningen Ekonomerna, the student and the Department of Business Administration.

Bonus points from previous semesters

Students who have received three (3) bonus points for engagement within Föreningen Ekonomerna have their entire study time to use them. This means that earned bonus points can be used both during the student's bachelor studies as well as master studies. If a student has received bonus points during his/her bachelor program and has not used them, he/she may use them during his/her master studies. In order to do this, the student must attach his/her certificate for the commitment that has earned his/her bonus points. After the bonus points have been used, there is no possibility to earn new bonus points for a second semester abroad.
