

Föreningen
Ekonomerna
STOCKHOLMS UNIVERSITET

VICE PRESIDENT & HEAD OF EDUCATION

To whom it may concern,

My name is Karin Asp and I am 22 years old currently studying my Bachelor of Science in business and economics at Stockholm Business School. I have chosen finance as my major and this previous year I have also worked extra at Swedbank.

As a person I am outgoing and driven. I have ever since I was legally able to work, had an extra job outside of school. I am a quick learner and I always strive to do things the best that I can. During my time at the university I have been involved in several activities within Föreningen Ekonomerna. These activities have included being a course representative, a buddy for international students, an associate at Ekonomernas dagar, and the project leader for Career Day, which took place this fall. Balancing full time studies, an extra job and being involved in school activities have required me to be structured and to plan my time accordingly. That said I consider myself to be good at having a lot going on and planning my time. Further on, I am now applying for the position of Vice President within the board.

The interest to apply for the position grew on me as I learned more on the role and responsibilities of the Vice President. What is appealing to me is to have an influence in people's time and studies at the university and creating value for current and future students. I have previous experience from being on the board for my high schools athletic association. This was voluntary work and involved meetings every week, making decisions regarding the association, and budgeting and planning events for our members. If I would get the position as Vice President, I would not have any other obligations besides school the upcoming year. I am prepared for the amount of work of the role and I am willing to put down as much time as needed if I would be chosen.

Best regards,

Karin Asp

April 22nd 2020

APPLICATION FOR THE SPOT AS TREASURER FOR FÖRENINGEN EKONOMERNA

As an individual I would say that I'm ambitious and motivated if you ask me. And why is that?

I always see things positively and when it's negative I try to turn it to something positive. When I do something I set my goals when I do something and I have a vision. When I first started studying I had a vision of getting engaged in the Association. I started off by being active and take part of Fadderiet SS19 and had very fun during those six weeks. I then participated in Ekonomernas Dagar 2020 as an associate in team logistics and had a great evening and mingle with company representatives who sat at my table. I felt like it was worth getting involved and connect with others, socializing, networking during events. So I decided to apply for the board and hopefully fill the spot as the treasurer of Föreningen Ekonomerna. I have the experience of working with numbers since I'm a small business owner myself and I would love to and with confidence contribute and make considerable difference at Föreningen Ekonomerna.

I am also fluent in three languages which are: Swedish (native), Persian (native) also known as Farsi and English (fluent).
