(Appendix 1)

The Fadderiet General SS21 applicants were asked to present the idea papers they were requested to prepare for the meeting, one at a time, in order to get a better idea regarding the extent to which the general applicants are prepared for the role as far as the status quo is concerned, and their plans in accordance to that, especially when it comes to preparing for Fadderiet to be fully online for SS21.

§.14 Discussion item: Choir Club Music Equipment
Rapporteur: Luisa Dahlstedt (Appendix 4)
The Choir Club expressed that it needs some equipment like soundproof materials and musical instruments, but the concern was based on whether this level of investment is justified by the amount of interest gauged so far. Also, the current Chair of the Choir Club cannot continue in his role during the next semester, so a new Chair would have to be elected for the upcoming semester. The Board felt under the circumstances that the club is yet to gain enough traction and the proposed budget is a bit too high. The argument was also made that putting in some investment could help generate a lot of interest. Discussion went on considering the investments further down the line, as the club has only just been started. Further discussions entailed employing a depreciative pricing model for the equipment proposed to be purchased, as well as the feasibility of using the PwC-room for choir practices, but it was concluded that it provides adequate spacing for practices once the current restrictions are lifted. Possible investment into a digital workshop kind of program was also discussed. The Board felt it was a good idea to allocate a small budget for the Choir Club to be able to buy some equipment once Festningen opens up again.

§.15 Discussion item: Purchasing Adobe programs for the Association
Rapporteur: Ada Nuutti (Appendix 5)

Licensed items for universities/schools were been discussed and it was agreed that the purchasing of these programs would be put under the marketing budget since the programs are primarily needed by the marketing teams.

§.16 Decision item: Revised Association Budget 20/21
Rapporteur: Alice Arabshahi (Appendix 2)

Alice Arabshahi explained the changes she made in the revised Association budget since the last Board meeting. The issue concerning the money allocation for the Spring Ball and how that fund is to be used was discussed and practicalities about what should be done with the money if it was not to be used for Spring Ball were gone through. The budget allocated to the Ministry of Marshals was discussed, especially in relation to the value of their kick-offs and kick-outs. At the end, the Board concluded that the most optimal solution would be to add 1000 SEK more into the MÅ kick-off and remove the kick-out overall because the money offers more value that way.
The Board also decided that 5000 SEK is to be allocated to inventory for music equipment.

I claim

that the Board approves the revised Association Budget 20/21

Decision

that the Board approves the revised Association Budget 20/21 (with the aforementioned changes)

§.17

Decision item: IT Committee Activity Plan 20/21

Rapporteur: Luisa Dahlstedt (Appendix 3)

The Board discussed the feasibility of Activity Plan. The Board felt that certain specificities would still need to be reworked and removed as project plans need to be approved by the Board before being put into action. Editorial changes are required. Especially, the part of the short documentaries was discussed and whether it should be removed entirely or just rewritten to be less detailed and clearly state that this the IT Committee would collaborate with Marketing Committee in this project.

I claim

that the Board approves the IT Committee Activity Plan 20/21

Decision

that the Board does not approve the IT Committee Activity Plan 20/21

Appendix 4

Discussion item: Choir Club Music Equipment
Rapporteur: Luisa Dahlstedt

Background: This item was tabled Board Meeting #11 and therefore moved to Board Meeting #12.

After Frida Sjöberg and I had a meeting with the Choir club, they felt as if it would be good to invest in some music equipment to further enhance their abilities with what they can offer in terms of music. They have created a budget of what they would need, but the discussion comes down to if we as a Board feel like it is worth investing in right now. Given that meeting physically is limited do we think that we should put money into creating a music room or at least providing some equipment? See the attached document “Budget for Music Equipment” for specifications.

Appendix 5

Discussion item: Purchasing Adobe programs for the Association
Rapporteur: Ada Nuutti

Background: This item was tabled Board Meeting #11 and therefore moved to Board Meeting #12.

The YouTube Content Group has requested whether it would be possible to purchase a video editing program (Premiere Pro) they could use for editing their material. It has been also discussed that a photo editing program (Photoshop) could be useful. Considering especially the current situation and the need to use online platforms more
than usual I think it would be very beneficial to have these programs for everyone to use in the Association.

I have looked up the alternative purchasing options and there are a couple of different ways to buy these programs. My idea is to have them on the computer(s) in Festningen. If I have understood correctly, purchasing these programs is somewhat budgeted for in the Association budget (under marketing). The options are either to buy a license meant for universities (144,00 SEK a month per license excl. VAT and we would need at least once license for each program) or to buy a student package (195,00 SEK a month for all programs incl. VAT but this might have to be purchased as a private person). I would like to hear the rest of the Board's opinion on the idea to buy these programs and on which purchasing plan would make the most sense.
