VICE TREASURER

Julia Wallstén

Vice Treasurer Application

My name is Julia and I am interested of being the next vice treasurer. I am currently working on a double bachelor of Economics and Political Science at the University of Stockholm. I am Swedish and thus have full proficiency in Swedish but I grew up abroad. I have lived for 13 years in Libya, Croatia, US, and England. I also spent last years summer in Shanghai were I did an intensive summer course at the University of Fudan. Before this pandemic put the summer to a halt, I had been accepted into Stanfords summer session as well as a ten-week long internship with top developers in Silicon Valley. Although, I do not have this experience now, this helps to demonstrate that I am extremely hardworking and diligent.

I have always loved being involved in my schools community and have a lot of experience from several projects. I have been the Under General Secretary for Stockholm Model United Nations for two years where I helped coordinate a week long conference that hosts up to 250 students every year. I have also been the Vice President for the United Nations Association of SU and the creative director of PEPP at KTH. This shows that I am both disciplined and organised as I have been juggling several projects at once previously. I have always wanted to become more active in Föreningen Ekonomerna but sadly all the events I was hopping to join last year got canceled due to the pandemic, thus I look forward to potentially getting this opportunity to work with you now.

I would really appreciate the chance to improve my skills in accounting as it is an area that I have always been interested in but have not had the opportunity yet to thoroughly explore. In addition, this is a great chance for me to develop a lot of new skills for example, I am very interested to learn more about investments and the financial side of university events. I have been involved previously in marketing, event planning and the logistics side of projects but have yet to take a financial role to this extent before. I might lack the concrete experience you are looking for but I can promise that I make that up in handwork and passion.

I am a very outgoing; positive person as I have also contributed to Språk Verkstaden and the Buddy program at SU. I have a lot to contribute to your team as I not only have a unique background but I have a lot of different experiences which means I can add ideas and a new perspectives to your meetings. Based on the instagram introductions that you have posted so far, I think that I would get along great with the team as the majority are interested in sports or travelling, as am I. I also love being active, hence I am a volleyball coach at SSIF as well as a division 2 player. I sincerely hope that you consider me for the role of vice treasurer, if you have any questions please do not hesitate to ask.

Best regards,
Julia Wallstén

Vice Treasurer – Adam Nilsson Kaluti

Hej!

Det finns en väldigt enkel anledning till varför jag sökte positionen som Vice Treasurer; jag trodde aldrig att ekonomi kunde vara så intressant som det visade sig att vara, och otroligt nyfiken som jag är så vill jag lära mig allt jag kan! Jag tog en titt på finansmarknaden i januari detta år och fastnade helt, det passade mig perfekt; Analys, strategi, politik, psykologi, optimering, är alla saker som jag finner otroligt intressant så jag bytte universitet och inriktning och skaffade ett jobb på FinTech-banken Lendify där jag nu jobbar deltid.

Jag som person är väldigt optimistisk och har mycket energi, samarbetar väl med praktiskt taget vem som helst, har ett bra öga för detaljer och en bra analytisk bedömningsförmåga mellan fördelar och nackdelar. Dessa personlighetsattribut bland andra gör att jag känner mig säker i att säga att jag skulle göra ett bra jobb som Vice Treasurer, jag hade inte sökt positionen om jag trodde något annat.

Mina egna förväntningar på denna position är att lära mig mycket, få en inblick i hur föreningen opererar och förhoppningsvis träffa många roliga och intressanta människor på köpet!

Har ni några frågor eller vill veta något mer så är det bara höra av sig, jag arbetar 12.30-19.00 två dagar i veckan så kan ibland ha svårt att svara på telefonen vid dessa tidpunkter men i övrigt så kollar jag min mail dagligen och går att hitta på diverse facebook-grupper och liknande där jag hittade er!

/Adam

Motivational letter

My name is Alan Rashid and I'm a master's student currently enrolled in the Operations Management and Control program here at Stockholm Business School. I am writing this letter to express my interest for the position of Vice Treasurer of Föreningen Ekonomerna.

As a former Accounting and Finance major, I am aware of the different financial statements and have a good working knowledge of accounting theory. From my time working as a Business Manager, I gained practical experience in day-to-day accounting and in how to construct budgets and oversee spending to ensure accountability and fiscal responsibility. Also, given my former involvement in the Association as an undergraduate, and as a proud former member of the International Committee, I am well acquainted with the inner workings of the Association and could quickly get to work as Vice Treasurer.

Beyond skills and qualifications, I want to be involved in the Association because of how important it was for my university experience. I made some of my fondest memories during my time as an undergraduate student when I was working on the Venture Asia project and I want to ensure that other students can have the same experience as I did.

I am disciplined and hard-working. I am structured, deliver on time, and efficient. I enjoy working with others and understand that beyond helping to ensure that the Association runs smoothly, my primary objective is to ease the burden on the Treasurer. It is a challenge I welcome.

Looking forward hearing from you!

Kind regards,

Alan Rashid
